

**Session Program**

**1-5 Oct 2024**

**HEASA 2024**

***Transients***

# Wednesday 2 October

09:30

## Transients

**Session** | **Location:** Wits Rural Facility, Orpen Road, Acornhoek, 1280 | **Convener:** Andrew Chen

09:30–09:45

### Implications of Joint Spectral Analysis from Fermi(GBM, LAT, and LLE) on Phenomenological GRBs Correlations

**Speaker**

Tamador Aldowma

09:45–10:00

### Compton polarization signatures in gamma-ray burst models

**Speaker**

Pieter Vd Merwe

10:00–10:15

### Dissecting the Radiative Puzzle of VHE GRBs: Insights from Multi-Wavelength Modeling

**Speaker**

Dr ankur ghosh

10:15
