

Session Program

19-23 May 2019

Low Radioactivity Techniques 2019

-

Tuesday 21 May

09:00

-: Production of low background scintillating crystals for underground experiments in Korea - Moo Hyun Lee - IBS, Korea

Session | **Location:** Laboratorio Subterráneo de Canfranc (LSC), Spain

09:25

09:25

-: Status of the SABRE NaI (TI) dark matter experiment - Suerfu Burkhant - Princeton University, USA

Session | **Location:** Laboratorio Subterráneo de Canfranc (LSC), Spain

09:50

09:50

-: Purification of crystals for AMORE and COSINE - Olga Gileva - IBS, Korea

Session | **Location:** Laboratorio Subterráneo de Canfranc (LSC), Spain

10:10

10:10

-: Status of direct Dark Matter search experiment at KamLAND - Alexandre Kozlov - University of Tokyo, Japan

Session | **Location:** Laboratorio Subterráneo de Canfranc (LSC), Spain

10:30

10:30

-: Analysis of backgrounds for the ANAIS-112 dark matter experiment - Susana Cebrián - University Zaragoza, Spain

Session | **Location:** Laboratorio Subterráneo de Canfranc (LSC), Spain

10:50
