

Session Program

10 December 2020

11th FTEC Workshop

FTEC2019: Mechanical Engineering

Thursday 10 December

13:40

FTEC2019: Mechanical Engineering

Session

13:40-13:50

Design and manufacturing of normal conducting copper structures (FTEC2019-09)

Speaker

Pedro Morales Sanchez

13:50-14:00

Mechanical Engineering for beam intercepting devices (target, collimators and dumps) (FTEC2019-17)

Speaker

Alvaro Romero Francia

14:00-14:10

Fabrication Engineering for Accelerator components (FTEC19-19)

Speaker

Miguel Navarro Baeza

14:10-14:20

Mechanical or material engineering for studies on radiation damage on beam intercepting devices materials (FTEC2019-20)

Speaker

Ramiro Francisco Mena Andrade

14:20
