

Session Program

10 December 2020

11th FTEC Workshop

FTEC2019: Control Systems/Computing

Thursday 10 December

15:30

FTEC2019: Control Systems/Computing

Session

15:30-15:40

Validation and verification of industrial control systems (FTEC2019-11)

Speaker

Ignacio David Lopez Miguel

15:40-15:50

Full-stack Software Engineering for internal applications (FTEC2019-21)

Speaker

Nahuel Verdugo Reviglioni

15:50-16:00

Consolidation and Redesign of the CERN Industrial Controls Frameworks (FTEC2019-10)

Speaker

Juan Manuel Pablo Rodriguez

16:00-16:10

Control system engineering for the refurbishment of a Cold-box (FTC2019-01)

Speaker

Sergio Villanueva Martinez

16:10-16:20

Mathematical Geodetic Observation Modelling and Testing (FTEC2019-13)

Speaker

Monica Coppo Frias

16:40
