

Session Program

11 February 2021

FTEC 2018 trainees farewell

FTEC 2018: Mechanical Engineering

Thursday 11 February

10:10

FTEC 2018: Mechanical Engineering

Session

10:10-10:15

Thermal / Instrumentation Engineer for Superconducting RF cavities (REF264H)

Speaker

Lorena Vega Cid

10:15-10:20

Mechanical Engineer for the design and construction of high power Radio Frequency (RF) devices (REF265F)

Speaker

Sonia Garcia Scheifler

10:20-10:25

Mechanical Engineer working on the Dimensional Control of Nb₃Sn Coils and Magnet Assemblies (REF279F)

Speaker

Cristina Castro Sequeiro

10:25-10:30

Mechanical Engineer for the Design and the Construction of Cryogenic Devices and Systems (REF282Z)

Speaker

Oscar Duran Lucas

10:30-10:35

Electro-mechanical Engineer for Nb₃Sn and HTS Coil Production, Magnet Assembly and Qualification Measurements during Production (REF324I)

Speaker

Cinta Lucia Marraco Borderas

10:35
