

Session Program

20 January 2022

**13th FTEC Workshop (only remote
connection)**

FTEC 2021: Beam Physics

Thursday 20 January

14:50

FTEC 2021: Beam Physics

Session

14:50–15:00

Computation of the beam coupling impedance from precomputed fields

Speaker

Elena De La Fuente Garcia

15:00–15:10

Optimisation of the source and LEBT for linac4

Speaker

Jone Etxebarria Erdoiza

15:10–15:20

Characterization of bunch-by-bunch tune shift effect in the SPS

Speaker

Ingrid Mases Sole

15:20
