

Session Program

22 June 2022

14th FTEC Workshop (on site + remote)

FTEC 2021: Mechanical Engineering

CERN, 30/6-019

Wednesday 22 June

12:20

FTEC 2021: Mechanical Engineering

Session | Location: CERN, 30/6-019

12:20–12:30

Engineering/design of tooling for removal and storage of 250-tonne fragile calorimeter from the CMS detector, 100m underground, to the surface

Speaker

Victorio Sanchis Ortola

12:30–12:40

Engineering and design of interface systems to integrate the new 250-tonne high-granularity calorimeter into the CMS detector

Speaker

Diego Garcia Robles

12:40
