

Session Program

22 June 2022

14th FTEC Workshop (on site + remote)

FTEC 2021: Beam Physics

CERN, 30/6-019

Wednesday 22 June

11:10

FTEC 2021: Beam Physics

Session | **Location:** CERN, 30/6-019

11:10–11:20

Computation of the beam coupling impedance from precomputed fields

Speaker

Elena De La Fuente Garcia

11:20–11:30

Optimisation of the source and LEBT for linac4

Speaker

Jone Etxebarria Erdoiza

11:30–11:40

Characterization of bunch-by-bunch tune shift effect in the SPS

Speaker

Ingrid Mases Sole

11:40
