**15-17 Jan 2020**

# **Iberian Strings 2020**

## ***Talk***

Santiago de Compostela  
Hospederia de San Martiño Pinarío Plaza de la Inmaculada, 3 15704 Santiago de Compostela

# Wednesday 15 January

10:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

10:00–10:30

### Radiation at strong coupling

**Speaker**

Bartomeu Fiol

10:30

11:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

11:00–11:30

### Anisotropic states from smeared branes

**Speaker**

Carlos Hoyos

11:30–12:00

### Lorentzian CFT correlators in momentum space

**Speaker**

Dr Teresa Bautista Solans

12:00–12:30

### Integrable asymmetric lambda-deformations

**Speaker**

Sibylle Driezen

12:30–13:00

### Stringy extremal black holes

**Speaker**

Pedro F. Ramirez

13:00

16:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

16:00–16:30

### S-folds and supersymmetric Janus solutions

**Speaker**

Adolfo Guarino

16:30

# Thursday 16 January

10:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

10:00–10:30

### Real-Time Dynamics of Plasma Balls in a Confining Background

**Speaker**

David Mateos

10:30

11:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

11:00–11:30

### New results in AdS3/CFT2

**Speaker**

Yolanda Lozano

11:30–12:00

### Flowing to N=3 Chern--Simons-matter theory

**Speaker**

Javier Tarrío

12:00–12:30

### Supersymmetric RG Flows from Spatially Varying Couplings

**Speaker**

Christopher Rosen

12:30

15:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

15:00–15:30

### SYK-inspired approach to flat space holography

**Speaker**

Daniel Grumiller

15:30–16:00

### Holographic Complex CFTs

**Speaker**

Antón Faedo

16:00–16:30

### Complexity measures in QFT and constrained geometric actions.

**Speaker**

Dr Pablo Bueno

16:30

17:00

**Talk****Session** |**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

17:30

17:00–17:30

**Near Horizon Symmetries****Speaker**

Celine Zwickel

# Friday 17 January

10:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

10:00–10:30

### Weyl metrics and Wiener-Hopf factorization

**Speaker**

Gabriel Cardoso

10:30

11:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

11:00–11:30

### Homotopy transfer of $L_\infty$ algebras

**Speaker**

Victor Lekeu

11:30–12:00

### $\alpha'$ corrections of Reissner-Nordstrom black holes

**Speaker**

Pablo Antonio Cano Molina-Niñirola

12:00–12:30

### Backreacted D3-D5 intersections

**Speaker**

José Manuel Penín

12:30

15:00

## Talk

**Session** |

**Location:** Santiago de Compostela, Hospederia de San Martiño Pinario Plaza de la Inmaculada, 3 15704 Santiago de Compostela

15:00–15:30

### Anomalies in F-theory

**Speaker**

Pierre Corvilain

15:30–16:00

### Holographic Collisions and the QCD Critical Point

**Speaker**

Yago Bea

16:00–16:30

### Strings are (visco)-elastic

**Speaker**

Matteo Baggioli

16:30
