

Session Program

15-19 Nov 2021

Course on Neutron Star Physics ***Observational characterization via EM emission***

IGFAE, Sala de Xuntas bloque IV / Zoom

Tuesday 16 November

11:00

Observational characterization via EM emission: Observational characterization via EM emission

Session | **Location:** IGFAE, Sala de Xuntas bloque IV / Zoom

11:00-12:00

Basic observational aspects of pulsar classes

Speaker

Dr Diego Torres

12:00-13:00

High Energy emission of pulsars and their nebulae

Speaker

Diego Torres

13:00
