

Third Joint Workshop IGFAE / LIP

Monday 4 July 2022 - Monday 4 July 2022

Centro ABANCA Obra Social

Book of Abstracts

Contents

Welcome	1
QCD phenomenology at LIP	1
QCD at IGFAE	1
The Southern Wide-field Gamma-ray Observatory	1
The MARTA engineering array	1
Muon tomography at LIP	1
LIP activities @ DUNE (TBC)	1
UHE interactions using data from the surface and radio detectors at Auger	1
IGFAE activities @ DUNE	2
Following the muon track of hierarchical sectors at LHCb	2
Memories of Jorge Dias de Deus	2

1

Welcome

QCD / 2

QCD phenomenology at LIP

Corresponding Author: guilherme.milhano@ist.utl.pt

QCD / 3

QCD at IGFAE

Cosmic rays / 4

The Southern Wide-field Gamma-ray Observatory

Corresponding Author: ruben.mauricio.da.silva.conceicao@cern.ch

Cosmic rays / 5

The MARTA engineering array

Corresponding Author: pedjor@lip.pt

Neutrinos / 6

Muon tomography at LIP

Corresponding Author: raul@lip.pt

Neutrinos / 7

LIP activities @ DUNE (TBC)

Cosmic rays / 8

UHE interactions using data from the surface and radio detectors at Auger

Corresponding Author: enrique.zas@gmail.com

Neutrinos / 9

IGFAE activities @ DUNE

Corresponding Author: diego.gonzalez.diaz@cern.ch

10

Following the muon track of hierarchical sectors at LHCb

Corresponding Author: titus.mombacher@cern.ch

11

Memories of Jorge Dias de Deus

Corresponding Authors: pimenta@lip.pt, pajares@fpaxp1.usc.es
