

Session Program

18-22 Oct 2021

**The 2021 School on the Physics of Baryons
(Baryons-21_School)**

***Novelties from New Experimental
Programmes***

Seville, Virtual
On-line school

Monday 18 October

13:00

Novelties from New Experimental Programmes

Session | **Location:** Seville, Virtual, On-line school

13:00–13:35

New M2 beamline at the CERN SPS

Speaker

Catarina Quintans

13:35–14:10

Overview of LHCb recent results

Speaker

Arantza De Oyanguren Campos

14:10–14:45

Future EIC at Brookhaven National Laboratory

Speaker

Rolf Ent

14:45

15:15

Novelties from New Experimental Programmes

Session | **Location:** Seville, Virtual, On-line school

15:15–15:50

Proposal and Planning for an Electron Ion Collider in China (EicC)

Speakers

Rong WANG, Xurong Chen

15:50–16:25

JLab's Unique Contributions to Strong QCD: Recent Results and Future Goals

Speaker

Ralf Gothe

16:25–17:00

Hyperon Physics with BESIII

Speaker

Stina Karin Schoenning

17:00
