

Lipkin model on a quantum computer

Thursday 14 July 2022 11:30 (25 minutes)

Quantum computers show great promise, but as yet are still limited to toy problems. Here I discuss the quantum computation of that classic toy model of nuclear structure, the Lipkin model, and what we can learn about the near and far future of quantum computing.

Author: JOHNSON, Calvin

Presenter: JOHNSON, Calvin

Session Classification: Novel aspects and signatures of QPTs in nuclei

Track Classification: Novel aspects and signatures of QPTs in nuclei
