The small-scale structure of the Universe as a conclusive test of CDM

Thursday 25 October 2018 09:20 (40 minutes)

I will discuss the status of the Λ CDM cosmological model and propose a new test that can unambiguously distinguish cold dark matter from other dark matter candidates such as warm dark matter. This test could potentially rule the standard model.

Presenter: Prof. FRENK, Carlos (United Kingdom)

Session Classification: Morning session
