

Condensed Complexity - The Essence of Information Processing and Cognition?

Contribution ID: 12

Type: **not specified**

Frontiers in autonomous AI-driven discovery

Thursday 9 November 2023 14:45 (45 minutes)

I will describe recent advances at the interface of physics-inspired AI, advanced computing, and automated workflows, and how these novel and complementary approaches are pushing the frontiers of knowledge and elevating human insight across disciplines.

Presenter: Dr HUERTA, Eliu (Argonne National Laboratory & The University of Chicago)

Session Classification: Session 6
