## **Session Program**

22-26 Apr 2024

## 24th IEEE Real Time Conference - ICISE, Quy Nhon, Vietnam

Oral presentations and mini Oral

## Thursday 25 April

09:00-09:20	
	ent and test of a 48-optical ports high precision clock distributor boar
Speaker	
Denis Calvet	
09:20-09:40	JUNO DAQ Design and Status
Speaker	
Xiaolu Ji	
09:40-10:00	
Commissio	oning and Early Experience of the New Online Storage and Express-
Commissio	
Commissio Reconstrue	oning and Early Experience of the New Online Storage and Express-
Commissic Reconstrue Speaker	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment
Commissio Reconstrue	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment
Commissio Reconstruct Speaker Seokhee Park	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment
Commissic Reconstruct Speaker Seokhee Park 10:00-10:20	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment
Commissic Reconstruct Speaker Seokhee Park 10:00-10:20	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment
Commissic Reconstruct Speaker Seokhee Park 10:00-10:20	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment
Commissio Reconstruct Speaker Seokhee Park 10:00-10:20 An Intermo	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment ediate Level Supernova Pointing Trigger for DUNE Using In-storage AI
Commissio Reconstruct Speaker Seokhee Park 10:00-10:20 An Interme Speaker	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment ediate Level Supernova Pointing Trigger for DUNE Using In-storage AI
Commissio Reconstruct Speaker Seokhee Park 10:00-10:20 An Interme Speaker	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment ediate Level Supernova Pointing Trigger for DUNE Using In-storage AI Jang
Commission Reconstruct Speaker Seokhee Park 10:00-10:20 An Interme Speaker Michael H L W 10:20-10:40	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment ediate Level Supernova Pointing Trigger for DUNE Using In-storage AI /ang
Commission Reconstruct Speaker Seokhee Park 10:00-10:20 An Intermo Speaker Michael H L W 10:20-10:40 Cross-Chip	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment ediate Level Supernova Pointing Trigger for DUNE Using In-storage AI Jang
Commission Reconstruct Speaker Seokhee Park 10:00-10:20 An Intermo Speaker Michael H L W 10:20-10:40 Cross-Chip Speaker	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment ediate Level Supernova Pointing Trigger for DUNE Using In-storage AI /ang
Commission Reconstruct Speaker Seokhee Park 10:00-10:20 An Intermo Speaker Michael H L W 10:20-10:40 Cross-Chip	oning and Early Experience of the New Online Storage and Express- ction System for the Belle II Experiment ediate Level Supernova Pointing Trigger for DUNE Using In-storage AI /ang
Commission Reconstruct Speaker Seokhee Park 10:00-10:20 An Intermo Speaker Michael H L W 10:20-10:40 Cross-Chip Speaker	ediate Level Supernova Pointing Trigger for DUNE Using In-storage Al Ang
