

## Session Program

4-8 Jun 2017

## 27th IEEE Symposium on Fusion Engineering

### *R.OP4: Stellarators*

Marriott Shanghai City Center  
555 Xi Zang Road (Middle), Huangpu District Shanghai 200003 China

# Thursday 8 June

15:00

## R.OP4: Stellarators

Session | Location: Salon 1

15:00–15:20

### Preparation and commissioning for the LHD deuterium experiment

**Speaker**

Prof. Masaki Osakabe

15:20–15:40

### Review of Research and Engineering on the H-1 Helic

**Speaker**

Dr Boyd Blackwell

15:40–16:00

### HIDRA - A Stellarator for Materials Research

**Speaker**

Prof. Daniel Andruczyk

16:00–16:20

### The quasi-optical steady state 10 MW ECRH system of Wendelstein 7-X - commissioning, plasma operation and future plans

**Speaker**

Torsten Stange

16:20–16:40

### Mechanical Monitoring Issues in Preparation to Next Step of W7-X Operation

**Speaker**

Dr Victor Bykov

16:40–17:00

### Prospects for stellarators based on additive manufacturing

**Speaker**

Vicente M. Qeral

17:00
