Session Program

4–8 Jun 2017

27th IEEE Symposium on Fusion Engineering

R.OP6: Safety, Operations, and Maintenance

Marriott Shanghai City Center
555 Xi Zang Road (Middle), Huangpu District Shanghai 200003 China

Thursday 8 June

15:00

R.OP6: Safety, Operations, and Maintenance
Session | **Location:** Salon 3

15:00–15:20
Failure Impact of crucial components on DEMO maintenance performance and mitigation attempts

Speaker
Martin Mittwollen

15:20–15:40 Fusion R&D Activities at INEST

Speaker
Prof. Jie Yu

15:40–16:00 FORENSIC ANALYSIS OF FAULTED NSTX-U INNER POLOIDAL FIELD COIL

Speaker
Mr Joseph Petrella, Jr.

16:00–16:20 Proposed methodology for unplanned repair scenarios in ITER

Speaker
Dr Shanliang Zheng

16:20–16:40
CorteX: A Standardised Remote Operations Communications System that is Inherently Designed to Accommodate Change

Speaker
Robert Skilton

16:40–17:00 Adjourn

17:00
