

Session Program

27 September 2021 to 1 October 2021

The 16th International Workshop on Tau Lepton Physics (TAU2021) (Virtual Edition)

Session 1: Properties of the tau lepton

Indiana University, Virtual

Sunday 26 September

08:10

Session 1: Properties of the tau lepton

Session | **Location:** Indiana University, Virtual | **Convener:** Toru Iijima

08:10–08:40

Historical overview of 30 years of tau lepton physics work

Speaker

Antonio Pich

08:40–09:05

Electron-Muon-Tau Universality Theory Overview

Speaker

Dr Bill Marciano

09:05–09:30

Measurement of τ lepton mass at BESIII

Speaker

Tao Luo

09:30–09:55

Status and prospects for tau property measurements at Belle II

Speaker

Dr Michel Hernandez Villanueva

09:55–10:20

Third order correction to the muon lifetime

Speaker

Dr Matteo Fael

10:20
