

EPICS Collaboration Meeting September 2022

Contribution ID: 38 Contribution code: BUILD

Type: **Lightning talk**

EPICS Deployment at NSLS-II

Thursday 22 September 2022 14:30 (5 minutes)

Since the transition of NSLS-II from Debian to RHEL as a primary standard OS, many things have changed in how EPICS software is being deployed. This lightning talk highlights some key differences and new approaches we utilize, such as moving away from Debian packaging, distributing a bundled EPICS base and modules RPM, automated package installation and more.

Author: DERBENEV, Anton

Presenter: DERBENEV, Anton

Session Classification: Lightning talks

Track Classification: Build and Deployment
