Type: **Talk**

EPICS tools and services update

Thursday 22 September 2022 16:20 (20 minutes)

An update on the latest developments in the EPICS tools and EPICS middle layer services. EPICS tools include applications like CS-Studio and Phoebus which provide a GUI for the EPICS control system and various EPICS services. The middle layer services include services which provide additional functionality on top of EPICS like Alarm consolidation and management, logging, archiving, etc...
