

# Minutes of the IUPAP EC Meeting

meeting via Zoom, 28th of January 2022

## Participants

Michel Spiro  
Jens Vigen  
Rudzani Nemutudi  
Monica Pepe Altarelli  
Stefano Fantoni  
Silvina Ponce Dawson  
Cecilia Cressi  
Sandro Scandolo  
Nithaya Chetty  
Laura H Greene  
Tetyana Antimirova  
Gillian Butcher  
Kuijuan Jin

Michel asks if there are comments or urgent matters to be discussed regarding the meetings just concluded.

Nithaya congratulates on the programme that IUPAP has for the future and thanks Michel and the team for the work done.

Michel explains that Boris had a problem in joining the meeting through indico, that's why he was not present.

Tetyana thanks everybody for the productive meeting and asks if there are Centenary satellite events planned in USA and Canada, Michel replies that there are not IUPAP Centenary events but IYBSSD is very connected with Canada.

Silvina asks if there is the possibility to visit some physics facilities in Trieste in July, Sandro and Stefano will try to organize a visit.

Jens says that an urgent and recurring matter is to face and solve the issue of medals and awards: someone has to define how the medals have to look like, who is going to produce the medals, who is taking care about the monetary prize and who is taking care of publishing the news. -> Sandro and Silvina will try to standardize a procedure

Michel thanks everyone and closes the meeting
