

Session Program

23-27 Sept 2019

Next Frontiers in the Search for Dark Matter

Searches at accelerators

GGI, Florence, Aula A

Tuesday 24 September

14:30

Searches at accelerators

Session | **Location:** GGI, Florence, Aula A

14:30–15:00

A general overview of the dark sector in relationship with searches at accelerators

Speaker

Gordan Krnjaic

15:00–15:30

An overview of experiments aiming to investigate the dark sector making use of electron beams

Speaker

Andrea Celentano

15:30–16:00

Dark matter searches at accelerators

Speaker

Caterina Doglioni

16:00–16:30

Coffee Break

16:30–17:00

Dark Matter searches at B-factories and first results from Belle II

Speaker

Nataliia Kovalchuk

17:00–17:30

Search for dark sector physics at proton beam experiments

Speaker

Xiaoyong Chu

17:30
