

Session Program

7-9 May 2018

Phenomenology 2018 Symposium

SUSY I

University of Pittsburgh
Pittsburgh, PA 15260

Monday 7 May

14:15

SUSY I

Session | **Location:** Benedum Hall, G-29**14:15–14:45** **Supersymmetry after 80 fb⁻¹****Speaker**

Matthew Buckley

14:45–15:00 **Searches for strong production of supersymmetry in CMS****Speaker**

Nathaniel Joseph Pastika

15:00–15:15 **Inclusive searches for squarks and gluinos with the ATLAS detector****Speaker**

Peter Tornambe

15:15–15:30 **Digging Deeper for a Monojet Excess in the LHC Data****Speaker**

Dr Anthony DiFranzo

15:30–15:45**Searches for direct pair production of third generation squarks with the ATLAS detector****Speaker**

Julia Lynne Gonski

15:45–16:00**Searches for supersymmetric partners of third-generation quarks in CMS****Speaker**

Hui Wang

16:00
