# LHC Phenomenology of Continuum SUSY

*Tuesday 7 May 2019 15:00 (15 minutes)*

In this work, we initiate a study of continuum SUSY signatures at LHC. Since we have not seen any new physics at LHC yet, one naturally asks what if the new physics's first sign does not comprise new resonances. Here, we try to demonstrate a scenario in the context of SUSY.

## Summary

**Authors:** GAO, Christina; GAO, Yang (Fermi National Accelerator Laboratory)

**Co-authors:** TERNING, John (UC Davis); SHAYEGAN, Ali (UC Davis)

**Presenter:** GAO, Christina

**Session Classification:** SUSY II
