

Session Program

6-8 May 2019

Phenomenology 2019 Symposium

BSM I

University of Pittsburgh
Pittsburgh, PA 15260

Monday 6 May

14:15

BSM I

Session | **Location:** Lawrence Hall, 107 | **Convener:** Pavel Fileviez Perez

14:15–14:45 **Vectorlike fermions**

Speaker
Stephen Martin

14:45–15:00 **Vectorlike leptons at future pp colliders**

Speaker
Prudhvi Nikhil Bhattiprolu

15:00–15:15 **Four-Fermi Interactions in the Standard Model Effective Theory**

Speaker
Daniel Wiegand

15:15–15:30
Search for New Phenomena in inclusive and exclusive $D_i(b)$ jet with the ATLAS Detector at $\sqrt{s} = 13$ TeV

Speaker
Gustavo Otero Y Garzon

15:30–15:45 **Searching for leptoquarks with the ATLAS detector**

Speaker
Louie Dartmoor Corpe

15:45–16:00
Searches for non-resonant new phenomena in final states with leptons, photons, and jets at CMS

Speaker
Christopher West

16:00
