Neutrinos I

Session | Location: Lawrence Hall, 207 | Convener: Prof. Nobuchika Okada

14:15-14:30
Invisible Neutrino Decay Resolves IceCube's Track and Cascade Tension
Speaker
Peter Denton

14:30-14:45 **New Signatures for IceCube from High Energy Neutrinos.**
Speaker
Bei Zhou

14:45-15:00 **A Tale of Two Anomalies: from LHCb to ANITA**
Speaker
Yicong Sui

15:00-15:15 **A Dark-Matter Interpretation of the Anomalous ANITA Events**
Speaker
Dr Lucien Heurtier

15:15-15:30 **Low-Scale Leptogenesis from t-channel annihilation**
Speaker
Arnab Dasgupta

15:30-15:45 **Baryogenesis via active neutrino oscillation**
Speaker
Dr Wen Yin

15:45-16:00 **Large Scale Structure Signals of Neutrino Decay**
Speaker
Peizhi Du

16:00
