Session Program

4-6 May 2020

Phenomenology 2020 Symposium

Higgs III

University of Pittsburgh Pittsburgh, PA 15260

Tuesday 5 May

16:30-16:45 Constraining the Higgs boson self-coupling in a combined measurement of sinal and double Higgs boson channels at the ATLAS experiment Speaker Eleonora Rossi 16:45-17:00 Combined Higgs boson measurements at the ATLAS experiment Speaker Kunlin Ran 17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLAS experiment Speaker Neetao Wang 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Nodezda Proklova 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker Asahan Shah		ivener: lan Lewis
and double Higgs boson channels at the ATLAS experiment Speaker Eleonora Rossi 16:45-17:00 Combined Higgs boson measurements at the ATLAS experiment Speaker Kunlin Ran 17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Wetao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLAS experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Nadezda Proklova 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker		
Speaker Eleonora Rossi 16:45-17:00 Combined Higgs boson measurements at the ATLAS experiment Speaker Kunlin Ran 17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLAS experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Joseffina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker yoseffina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker yoseffina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS <		
Eleonora Rossi 16:45-17:00 Combined Higgs boson measurements at the ATLAS experiment Speaker Kunlin Ran 17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLAS experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker		niggs boson channels at the ATLAS experiment
Speaker Kunlin Ran 17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLAS speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Illbb process at CMS Speaker	-	
Speaker Kunlin Ran 17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLAS speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Illbb process at CMS Speaker		
Kunlin Ran 17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLAS experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker		Combined Higgs boson measurements at the ATLAS experiment
17:00-17:15 Studies of Higgs boson properties in decays to two b-quarks at the ATLAS experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLA experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker		
Studies of Higgs boson properties in decays to two b-quarks at the ATLAS speaker Wetao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLA experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker	Kuniin Kan	
experiment Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLA experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker	17:00-17:15	
Speaker Weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLA experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker		
weitao Wang 17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLA experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker	-	:
17:15-17:30 Studies of rare production and decay processes of the Higgs boson at the ATLA experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→Ilbb process at CMS Speaker	•	
Studies of rare production and decay processes of the Higgs boson at the ATLA speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbbb process at CMS Speaker	· · · · · · · · · · · · · · · · · · ·	
experiment Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker	17:15-17:30	
Speaker Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbbb process at CMS Speaker		
Nadezda Proklova 17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbbb process at CMS Speaker Speaker	-	
17:30-17:45 Searches for BSM Higgs at ATLAS Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker		
Speaker Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker		Jva
Josefina Alconada 17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker	17:30-17:45	Searches for BSM Higgs at ATLAS
17:45-18:00 Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker		
Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker	Speaker	ada
Measurements of Higgs boson properties in the final state with four leptons at the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker	-	
the ATLAS experiment Speaker Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker	Josefina Alcona	
Verena Maria Walbrecht 18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→IIbb process at CMS Speaker	Josefina Alcona 17:45-18:00	ants of Higgs boson properties in the final state with four leptons at
18:00-18:15 Searches for scalar sector extensions of the standard model via H→ZA→llbb process at CMS Speaker	Josefina Alcona 17:45-18:00 Measureme	
Searches for scalar sector extensions of the standard model via H→ZA→llbb process at CMS _{Speaker}	Josefina Alcona 17:45-18:00 Measureme the ATLAS	
Searches for scalar sector extensions of the standard model via H→ZA→llbb process at CMS _{Speaker}	Josefina Alcona 17:45-18:00 Measureme the ATLAS Speaker	experiment
process at CMS Speaker	Josefina Alcona 17:45-18:00 Measureme the ATLAS Speaker Verena Maria M	experiment
