

Session Program

4-6 May 2020

Phenomenology 2020 Symposium

QCD & EW I

University of Pittsburgh
Pittsburgh, PA 15260

Monday 4 May

14:15

QCD & EW I

Session | Convener: Dr Daniel Wiegand

14:15–14:30

Signal-background interference for digluon resonances at the Large Hadron Collider

Speaker

Prudhvi Nikhil Bhattiprolu

14:30–14:45

Leading Fermionic Three-Loop Corrections to Electroweak Precision Observables

Speaker

Lisong Chen

14:45–15:00

Master Integrals for the mixed EW-QCD corrections to the Drell-Yan production of a massive lepton pair

Speaker

Syed Mehedi Hasan

15:00–15:15

The proton radius puzzle

Speaker

Gil Paz

15:15–15:30

Large electron electric dipole moment in the standard model

Speaker

Dr Nodoka Yamanaka

15:30–15:45

Integration By Parts like identities in Schwinger-Feynman-Lee-Pomeransky parametrization

Speaker

Ray Sameshima

15:45–16:00

-

16:00
