

Session Program

4-6 May 2020

Phenomenology 2020 Symposium

SUSY II

University of Pittsburgh
Pittsburgh, PA 15260

Tuesday 5 May

16:30

SUSY II

Session | **Convener:** Adam Martin

16:30–16:45 **Flavored Gauge Mediation with Discrete Non-Abelian Symmetries**

Speaker

Prof. Lisa Everett

16:45–17:00

Generating the Cabibbo Angle in Models of Discrete, Non-Abelian Flavored Gauge Mediation

Speaker

Ariel Rock

17:00–17:15

A landscape solution to the SUSY flavor and CP problems

Speaker

Dibyashree Sengupta

17:15–17:30

Probing Lepton Flavor Violating decays in MSSM with Non-Holomorphic Soft Terms

Speaker

Ms Samadrita Mukherjee

17:30–17:45

Mixed gluinos and sgluons from a new $SU(3) \times SU(3)$ gauge group

Speaker

Stephen Martin

17:45–18:00

One Model Fits All: A Minimal R-parity Violating Supersymmetric Model for the Flavor Anomalies, Muon $g-2$ and ANITA

Speaker

Bhupal Dev

18:00–18:15

A multicomponent dark matter scenario consistent with experiment

Speaker

Roland Allen

18:15–18:30

-

18:30
