

Session Program

4-6 May 2020

Phenomenology 2020 Symposium

SUSY I

University of Pittsburgh
Pittsburgh, PA 15260

Monday 4 May

14:15

SUSY I

Session | Convener: Konstantin Matchev

14:15–14:30
Searches for strong production of supersymmetric particles with the ATLAS detector
Speaker
Marco Valente

14:30–14:45 **Searching for pair production of top squarks at the CMS**
Speaker
Andrea Trapote Fernandez

14:45–15:00
Searches for electroweak production of supersymmetric particles with the ATLAS detector
Speaker
Jason Oliver

15:00–15:15 **SUSY phenomenology circa 2020**
Speaker
Howard Baer

15:15–15:30 **Stop and Gluino Searches at the LHC and Future Colliders**
Speaker
Dr Cem Salih Un

15:30–15:45 **Simple Hidden Sector Dark Matter**
Speaker
Zachary Johnson

16:00

15:45–16:00 -
