

Session Program

4-6 May 2020

Phenomenology 2020 Symposium

Neutrinos I

University of Pittsburgh
Pittsburgh, PA 15260

Monday 4 May

14:15

Neutrinos I

Session | Convener: Peter Denton

14:15-14:30 Looking forward to Neutrinos at the LHC

Speaker

Felix Kling

14:30-14:45 Long-lived heavy neutrino searches at the colliders

Speakers

Dr Arindam Das, Arindam Das, Arindam Das

14:45-15:00 Scalar and Tensor Neutrino Interactions

Speaker

Hongkai Liu

15:00-15:15
Neutrino Non-Standard Interactions: Complementarities Between LHC and Oscillation Experiments

Speaker

Dr SUDIP JANA

15:15-15:30 Neutrino Non-Standard Interactions via Light Scalars

Speaker

Garv Chauhan

15:30-15:45
How well do we know neutrino-electron scattering? EFT approach for neutrino interactions

Speaker

Dr Oleksandr Tomalak

15:45-16:00 Muonium-Antimuonium Oscillations in Effective Field Theory

Speaker

Renae Conlin

16:00
