

**Session Program**

**15-16 Sept 2022**

**A Life in Phenomenology**  
***Thursday Afternoon Session***

# Thursday 15 September

13:50

## Thursday Afternoon Session

Session

13:50-14:00 **Welcome and Introduction**

14:00-14:30 **LHC and Monte Carlo generators**

**Speaker**

Giacomo Polesello

14:30-15:00 **Precision in the "near" future of BSM**

**Speaker**

Riccardo Barbieri

15:00-15:30 **Precision at low energy, the case of MUonE**

**Speaker**

Fulvio Piccinini

15:30-16:00 **Measuring the quartic Higgs boson self-coupling at future colliders**

**Speaker**

Barbara Mele

16:00-16:30 **Coffe Break**

16:30-17:00 **Fragmentation functions**

**Speaker**

Bryan Webber

17:00-17:30 **Taming hadronisation corrections for collider observables**

**Speaker**

Silvia Ferrario Ravasio

17:30-18:00 **Light (and leptons) in the protons**

**Speaker**

Gavin Salam

18:00-18:30 **Some lessons I gained from Paolo**

**Speaker**

Giovanni Ridolfi

19:20
