

Session Program

24-26 May 2021

Phenomenology 2021 Symposium

Plenary

University of Pittsburgh
Pittsburgh, PA 15260

Monday 24 May

11:00

Plenary: II

Session | **Convener:** Lisa Everett

11:00–11:35

Dynamical tests of dark matter in the Milky Way

Speaker

Robyn Sanderson

11:35–12:10

Physics with NANOGrav

Speakers

Maura McLaughlin, Prof. Maura McLaughlin

12:10–12:45

Cosmology in 2021: Concordances and Tensions

Speakers

Elisabeth Krause, Elisabeth Krause

12:45

Tuesday 25 May

11:00

Plenary: IV

Session | **Convener:** Christophe Grojean

11:00–11:35

Muon g-2 and muon physics on Fermilab campus

Speakers

James Mott, James Mott

11:35–12:10

Beauty physics from Belle II

Speaker

Christoph Schwanda

12:10–12:45

Anomalies and their implications

Speakers

Bhupal Dev, P. S. Bhupal Dev

12:45

Wednesday 26 May

11:00

Plenary: VI

Session | **Conveners:** R Sekhar Chivukula , R. Sekhar Chivukula

11:00–11:35 **Scattering amplitudes and more**

Speaker
Henriette Elvang

11:35–12:10 **General Neutrino Interactions**

Speaker
Danny Marfatia

12:10–12:45 **New perspectives in particle physics**

Speaker
Richard Keith Ellis

12:45
