

Session Program

24-26 May 2021

Phenomenology 2021 Symposium

Cosmology I

University of Pittsburgh
Pittsburgh, PA 15260

Monday 24 May

14:15

Cosmology I

Session

14:15–14:30

Classical Cosmological Collider Physics

Speaker

Reza Ebadi

14:30–14:45

Massless Preheating and Electroweak Vacuum Metastability

Speaker

Jeff Kost

14:45–15:00

Electroweak Phase Transition with an SU(2) Dark Sector

Speaker

Hongkai Liu

15:00–15:15

Influence of asymmetry of potential on stability of domain walls

Speaker

Tomasz Krajewski

15:15–15:30

Hidden Naturalness in the Light of Cosmological Data

Speaker

Saurabh Bansal

15:30–15:45

Inflation From The MSSM

Speaker

Prof. Zurab Tavartkiladze

15:45–16:00

Messenger inflation in gauge mediation and superWIMP dark matter

Speaker

Shinsuke Kawai

16:00
