

Session Program

7-9 Apr 2021

PITT PACC Workshop: LHC physics for Run 3

Soft final states: Low p_T jets, leptons, long-lived

University of Pittsburgh
Pittsburgh, PA 15260

Friday 9 April

10:00

Soft final states: Low pT jets, leptons, long-lived

Session | **Location:** University of Pittsburgh, Pittsburgh, PA 15260 | **Convener:** Christian Herwig

10:00–10:40 **Unconventional signatures of supersymmetry**

Speaker
Matthew Reece

10:40–11:10 **Unconventional object reconstruction**

Speaker
Tova Ray Holmes

11:10–11:40
Long-lived particles: lessons learned for designing new trigger strategies

Speaker
Juliette Alimena

11:40–12:10 **Non-Standard Model Higgs decays**

Speaker
Rafael Coelho Lopes De Sa

12:10
