

One more year of BiCoQ: status and prospects

Report of Contributions

Contribution ID: 2

Type: **not specified**

The second year of BiCoQ

Thursday 5 December 2024 09:00 (20 minutes)

Presenter: TABARELLI DE FATIS, Tommaso (Universita & INFN, Milano-Bicocca (IT))

Session Classification: Welcome and introduction

Contribution ID: 7

Type: **not specified**

ARMONIA: Astrophysical observations of Dark Matter and Dark Energy

Thursday 5 December 2024 10:20 (20 minutes)

Presenter: BENITEZ LLAMBAY, Alejandro (University of Milano-Bicocca)

Session Classification: BiCoQ research lines

Contribution ID: 8

Type: **not specified**

CADMO: Dark Matter searches around DUNE

Thursday 5 December 2024 10:00 (20 minutes)

Presenter: BRANCA, Antonio (Universita & INFN, Milano-Bicocca (IT))

Session Classification: BiCoQ research lines

Contribution ID: 9

Type: **not specified**

GRAF: The challenge of interferometry on Earth (Virgo/ET)

Thursday 5 December 2024 09:20 (20 minutes)

Presenter: Dr ROZZA, Davide (University of Milano-Bicocca and INFN-MIB)

Session Classification: BiCoQ research lines

Contribution ID: **10**

Type: **not specified**

BAUSCIA: The challenge of high frequency gravitational waves detection

Thursday 5 December 2024 09:40 (20 minutes)

Presenter: CANONICA, Lucia (Università di Milano Bicocca)

Session Classification: BiCoQ research lines

Contribution ID: **11**

Type: **not specified**

GRAF: Thinkable and unthinkable about gravitational waves physics and astrophysics

Thursday 5 December 2024 11:20 (50 minutes)

Presenter: COLPI, Monica

Session Classification: BiCoQ Seminar
