The Darkest Matters: Model-Independent Constraints on Dark Matter and Cosmic Neutrinos

Tuesday 10 May 2022 16:45 (15 minutes)

In this talk, we use planetary and asteroid data to set new model-independent constraints on dark matter and cosmic neutrinos. See <https://arxiv.org/abs/2107.04038> and <https://arxiv.org/abs/2112.07674> for related previous works.
