

Session Program

25-26 Sept 2017

ASTRO-TS 2017

ASTROPARTICLE

TRIESTE, 128-129
SISSA - Via Bonomea

Monday 25 September

09:10

ASTROPARTICLE

Session | **Location:** TRIESTE, 128-129, SISSA - Via Bonomea

09:15-09:35

Takeshi Kobayashi - Cosmology with Light Scalars

09:35-09:55

Viviana Gammaldi - Indirect dark matter searches

09:55-10:10

Mihael Petac - Phase-space distribution of DM and its importance for indirect detection

10:10-10:25

Riccardo Murgia - Dark matter at small scales: a general approach

10:25-10:45

Thomas Jacques - Future CTA constraints vs Colliders and Direct Detection

10:45-11:00

Riccardo Munini - The GAPS Experiment to Search for Dark Matter using Low-energy Antimatter

11:00
