

## **Session Program**

**8 June 2018**

# **International Conference of Young Astrophysicists and Astronomers 2018**

## ***Highlight talks***

Vicolo dell'Osservatorio 3, Padua, Italy, room Rosino  
University of Padua Dipartimento di Fisica e Astronomia Vicolo dell'Osservatorio 3 35122 Padua, Italy

# Friday 8 June

10:15

## Highlight talks

Session

10:15–10:45

**Innovative pulsar searching techniques, and the discovery of a relativistic binary pulsar**

**Speaker**

Andrew Cameron

10:45–11:15

**THE SEARCH FOR PEVATRONS IN VHE GAMMA RAYS AND NEUTRINOS**

**Speaker**

Silvia Celli

11:15

11:30

## Highlight talks

Session

11:30–12:00

**Supernova remnants and pulsar wind nebulae at high and very-high energies**

**Speaker**

Justine Devin

12:00–12:30

**Measuring the polarization of the CMB with the QUIJOTE experiment**

**Speaker**

Federica Guidi

12:30

13:30

## Highlight talks

Session

13:30–14:00

**On the accuracy of reflection-based supermassive black hole spin measurements in AGN**

**Speaker**

Elias Kammoun

14:00–14:30

**Cosmic-ray ionization in diffuse clouds**

**Speaker**

Mr Vo Hong Minh Phan

14:30–15:00

**Molecules in Space**

**Speaker**

Mrs Elena Redaelli

15:00
