

## Cosmology 2023 in Miramare

Contribution ID: 19

Type: **not specified**

## CMB-S4 Science and Instruments

*Tuesday 29 August 2023 10:10 (30 minutes)*

CMB-S4 will reach critical thresholds for exploring primordial gravitational waves, light relics, and neutrinos, and map the matter throughout the Universe and capture transient phenomena in the microwave sky. We discuss the range of science and instruments.

**Presenter:** LINDER, Eric

**Session Classification:** Plenary Session - Chair Clem Pryke
