

Session Program

12-14 May 2022

LoopFest XX

Saturday Morning Session 2

University of Pittsburgh, Benedum Hall 157

Saturday 14 May

11:00

Saturday Morning Session 2

Session | **Location:** University of Pittsburgh, Benedum Hall 157

11:00–11:20 **Integrand Basis at 2 Loops**

Speaker

Jacob Bourjaily

11:25–11:45 **The duals of Feynman integrals**

Speaker

Andrzej Pokraka

11:50–12:05

Multi-scale Feynman integrals contributing to mixed QCD EW corrections to $H \rightarrow Z Z^*$

Speakers

Ekta Chaubey, Ina Hoenemann, ekta chaubey

12:10–12:30

Local Unitarity: a locally infrared-finite representation of differential cross-sections

Speakers

Valentin Hirschi, Valentin Hirschi

12:35
