

Session Program

2-3 Oct 2019

Partikeldagarna 2019

Thu morning session 1

Linköping University, Planck, Fysikhuset

Thursday 3 October

09:00

Thu morning session 1: Student talks

Session | **Location:** Linköping University, Planck, Fysikhuset | **Convener:** Riccardo Catena

09:00–09:14

Blazars as astroparticle physics laboratories: the case of KUV00311-1938 (11+3)

Speaker

Tomas Bylund

09:14–09:28

Observing the sky continuously at extreme photon energies with ALTO/COMET (11+3)

Speaker

Mohanraj Senniappan

09:28–09:42

Anomaly-free model building: algebraic geometry and the Froggatt-Nielsen mechanism (11+3)

Speaker

Felix Tellander

09:42–09:56

Finite temperature effects on particle decays (11+3)

Speaker

Mr Torbjörn Lundberg

09:56–10:10

The helicity-flow method (11+3)

Speaker

Andrew Lifson

10:10
