Recent highlights of dark matter searches from CMS

Monday 19 May 2025 17:00 (15 minutes)

Determination of the nature of dark matter is one of the most fundamental problems of particle physics and cosmology. This talk presents recent searches for dark matter particles from the CMS experiment at the Large Hadron Collider.

Mini Symposia (Invited Talks Only)

Plenary (Invited talks only)

Author: REINSVOLD HALL, Allison (Fermilab)

Presenter: REINSVOLD HALL, Allison (Fermilab)

Session Classification: Dark Matter

Track Classification: Dark Matter Theory and Detection
