

## Session Program

13-14 Oct 2018

## Particle Physics on the Plains 2018

### *Neutrinos and Dark Matter*

University of Kansas, 1160 Integrated Science Building  
Department of Physics & Astronomy University of Kansas Malott Hall Lawrence, KS

# Sunday 14 October

09:00

## Neutrinos and Dark Matter

**Session** |

**Location:** University of Kansas, 1160 Integrated Science Building, Department of Physics & Astronomy University of Kansas Malott Hall Lawrence, KS |

**Convener:** Bhupal Dev

09:00–09:20

### An R-parity Violating Supersymmetric Explanation of the EeV Events at ANITA

**Speaker**

Yicong Sui

09:20–09:40

### Leptogenesis and neutrino mass generation in LR symmetric model

**Speaker**

Anil Thapa

09:40–10:00

### Galactic Dark Matter Population as the Source of Neutrino Masses

**Speaker**

Matthew Sullivan

10:00–10:35

### Reflections On Supersymmetry Searches at the LHC

**Speaker**

Carlos E.M. Wagner

10:35
