

## **Session Program**

**13-14 Oct 2018**

## **Particle Physics on the Plains 2018**

### ***Higgs Physics II***

University of Kansas, 1160 Integrated Science Building  
Department of Physics & Astronomy University of Kansas Malott Hall Lawrence, KS

Saturday 13 October

11:15

Higgs Physics II

Session |

Location: University of Kansas, 1160 Integrated Science Building, Department of Physics & Astronomy University of Kansas Malott Hall Lawrence, KS |

Convener: Kaladi Babu

11:15-11:35

Multistep Single-Field Strong Phase Transitions from New TeV Scale Fermions

Speaker

Andrei Angelescu

11:35-11:55

A Comparative Study of Electroweak Higgs Boson Production at Future Hadron Colliders

Speaker

Tinghua Chen

11:55-12:20

A Forward Branching Phase Space Generator for Hadron Colliders

Speaker

Terrance Figy

12:20
