## Teaching and Learning on Nano Safety in School

*Monday 28 November 2016 15:20 (20 minutes)*

A good form of teaching and learning approach for nanosafety related topics is the use of games and entertainment values activities. According to experts much of the way we learn today is through the use of higher order skills. Games naturally support the form of education that requires ability to think through and solve complex problems, or interact critically through language or media. Game playing is an excellent way to help wire our brains in ways that are crucial to the what, why, and how of learning needs for the 21st century.
