

**Session Program**

**21-23 May 2018**

**The Mitchell Conference on Collider, Dark  
Matter, and Neutrino Physics 2018**

***Texas Session***

## Wednesday 23 May

14:00

### Texas Session Session

14:00-14:20

#### Things that go bump in the data: Searching Beyond the Standard Model

**Speaker**

Fred Olness

14:20-14:40

#### The Mu2e Experiment at FNAL

**Speaker**

Dr Aji Daniel

14:40-15:00

#### Non-thermal dark matter production from the end of inflation

**Speaker**

Mustafa Amin

15:00

15:20

### Texas Session Session

15:20-15:40

#### Searching For Dark Matter At UH

**Speaker**

Andrew Lee Renshaw

15:40-16:00

#### A Secret Asymmetry From Flavored Dark Matter

**Speaker**

Can Kilic

16:00-16:20

#### Recent results and current analysis activities from SuperCDMS

**Speaker**

Robert Calkins

16:20
