

Session Program

21-23 May 2018

**The Mitchell Conference on Collider, Dark
Matter, and Neutrino Physics 2018**

Student Talks

Monday 21 May

16:40

Student Talks

Session

16:40–16:55

21cm Limits on Decaying Dark Matter and Primordial Black Holes

Speaker

Steven Clark

16:55–17:10

CEvNS as a probe of Z' through kinetic and mass mixing effects

Speaker

Shu Liao

17:10–17:25

Bottom-quark Fusion Processes at the LHC for Probing Z' Models and B-meson Decay Anomalies

Speaker

Adrian Thompson

17:25–17:40

Leptogenesis and non-standard cosmology

Speaker

Esterban Jimenez

17:40
