

Session Program

15-17 May 2019

**The Mitchell Conference on Collider, Dark
Matter, and Neutrino Physics 2019**

Cosmology

Wednesday 15 May

09:00

Cosmology: Early Universe Session

09:00–09:25 **Baryogenesis and an Early Period of QCD Confinement**

Speaker
Tim M.P. Tait

09:25–09:50 **A phase of confined electroweak force in the early Universe**

Speaker
Joshua Berger

09:50–10:15
Multistep Strongly First Order Phase Transitions from New Fermions at the TeV Scale

Speaker
Peisi Huang

10:15
